NG CHEUK LAM, ANSON

Leeds, UK | 07873 827027 | ansonngjob@gmail.com | LinkedIn | My Website

PROFILE

Economics and Finance graduate (2:1, University of Reading), based in Leeds, open to roles across finance and keen to learn. Hands-on experience of checking and processing financial transactions: matching supplier invoices against purchase orders and agreed pricing before the cost is accepted, investigating anything that does not match through to a corrected invoice, and reconciling records against source and statements so every figure agrees. Advanced Excel (XLOOKUP, pivot tables, SUMIFS/COUNTIFS, reconciliation workbooks) and quick to pick up new finance systems. Communicate clearly with finance and non-finance colleagues, clients and international suppliers, meet set reporting deadlines, and look for ways to improve a process, having automated recurring manual steps in reporting. Trilingual in English, Mandarin and Cantonese, and keen to work towards a professional accountancy qualification.

EDUCATION

University of Reading – BSc Economics and Finance 2022 – 2025

Classification: 2:1 (Overall: 67.3%), every module passed at the first attempt. Also First level in Intermediate Mathematics for Economics (87%), Quantitative Techniques for Business and Finance (73%) and Portfolio Management (70%).

- **Financial Modelling (IC212):** 71% (A)
  Hands-on Excel module covering forecasting, time-series regression, valuation and portfolio management, building, checking and presenting workbooks to deadline, including a timed group project delivered as a team.
- **Private Equity and Venture Capital (IC309):** 80% (A)
  Covered the full fund lifecycle: structuring, GP and LP relationships, deal sourcing, due diligence, valuation and exits, including how costs, fees and returns are allocated between the parties.
- **Derivative Securities (IC317):** 75% (A)
  Studied forwards and futures, interest-rate futures, options pricing and the Greeks, and swaps, working from contract specification through to hedging and risk management.

Notre Dame Catholic Sixth Form College, Leeds – A Levels 2020 – 2022

WORK EXPERIENCE

1. Financial Research Assistant – GNS Intelligent Technology (HK) Ltd Jan 2026 – Present

- **Checking and reconciliation:** Maintain workbooks holding transaction, valuation and performance data, check outputs line by line against source figures, and trace anything that does not agree back to the underlying record and resolve it, rather than adjusting around it.
- **Managing queries:** Respond to queries from colleagues and clients by email and call, clarifying what is needed, chasing outstanding information and coming back with clear, accurate answers within agreed timeframes, in plain terms for people outside finance.
- **Accuracy under pressure:** Deliver recurring reporting cycles in Excel and PowerPoint to set dates alongside ad-hoc requests and day-to-day queries, managing competing priorities and flagging early where something needs a decision.
- **Reporting analysis:** Compile and analyse large internal and market data sets in Excel with lookups, pivot tables and SUMIFS, with basic SQL where the data sits across several tables, into accurate outputs that feed reporting, valuation and credit risk work.
- **Process improvement:** Designed and implemented automation workflows for recurring processes, taking manual steps out of routine preparation and reporting, and documented each so someone else could run and check it.

Project: Trading-Signal Telegram Bot

Python, Google Gemini API, RSS Feed, GitHub Actions, Cloudflare Workers

- **Replacing a manual routine:** Built a scheduled pipeline that reviews incoming finance news against defined criteria and forwards only what qualifies as a concise summary, replacing a daily manual scan, then tested and refined it until it ran reliably unattended.

2. Inventory & E-commerce Operations Coordinator – Sheep Mai Mai Apr 2026 – Present

- **Supplier invoice processing:** Check supplier invoices and shipping paperwork against purchase orders and agreed pricing before the cost is accepted, query anything that does not match, and follow it through to a corrected invoice.
- **Purchase orders:** Raise and manage purchase orders with suppliers worldwide, coordinating quantities, pricing and shipment timing, then reconcile each order against what actually arrives and what is invoiced.

- **Resolving discrepancies:** Where a figure does not agree, work back through the order, the supplier confirmation and the invoice to find where it went wrong, correct it at source and make sure the same error does not carry into the next cycle.
- **Accurate financial records:** Record stock, pricing, cost and product changes across the Wix storefront and Excel for multiple SKUs and suppliers, so every record agrees as orders come in and supplier terms change.
- **Customers and events:** Point of contact for international roasters by email across time zones. Also the company's barista at markets and coffee festivals, and organised and hosted a cupping for 15 guests, talking everyone through the coffees.

3. Active Personal Investor – US Equities 2020 – Present

- **Statement reconciliation:** Record every trade with entry, exit, size and rationale, and reconcile my records against broker statements so the numbers agree, investigating any difference before moving on.
- **Numeracy and financial awareness:** Five years of self-directed investing in US equities, following company financials, markets and interest rates daily, and tracking win-rate, risk/reward and P&L through a self-built journal.

4. Barista – London Coffee Festival May 2026

- Delivered high-volume service as part of a team at one of the UK's largest industry events, serving hundreds of customers daily in a fast-paced environment and staying accurate under sustained time pressure.
- Handled questions from the public and from industry professionals directly, staying courteous, clear and calm throughout, including at the busiest times.

OTHER PROJECTS

Casabrew – Coffee Logging Web App Live Product
casabrew.vercel.app | Next.js, Supabase, Vercel

- **Solo end-to-end build:** A full web app in live use by cafes, roasters and coffee specialists to capture structured data and report it back to users. Shows picking up an unfamiliar system quickly and taking a project from concept to live use, with real people relying on the data being right.

SKILLS

- **IT & Systems:** Microsoft Excel (advanced; XLOOKUP/VLOOKUP/INDEX-MATCH, pivot tables, SUMIFS/COUNTIFS, nested IF/IFERROR, reconciliation workbooks and charts), Word, PowerPoint, Outlook, Teams, Power BI (basic), Wix; quick to pick up new finance systems
- **Finance Operations:** Supplier invoice checking and purchase order matching, reconciliation against source and statements, query and discrepancy resolution, accurate financial record keeping, reporting analysis, documented procedures, process improvement
- **Numeracy & Analysis:** Strong numeracy (Mathematics 87%), analysing and interpreting financial data, forecasting and regression in Excel
- **Working Style:** Accuracy under pressure, managing competing priorities, meeting deadlines, professional and customer-focused service, good communication and teamwork
- **Programming & AI Tools:** Python (pandas, scripts), SQL (basic), VBA (learning), Git/GitHub; Claude Code, ChatGPT, Microsoft Copilot
- **Languages:** English (fluent), Mandarin (fluent), Cantonese (native)

LEADERSHIP & VOLUNTEERING

Vice President – Coffee Society, University of Reading 2025

- Co-led society operations, planned events, managed committee responsibilities, and coordinated with local cafes and external partners.

STAR Mentor – University of Reading Volunteering 2024 – 2025

- Mentored new students through their transition to university, answering questions on student life and helping them settle in academically and socially.

ADDITIONAL

- **Eligibility:** Based in Leeds (also open to Manchester and London) and happy to work in the office or on a hybrid basis. Right to work in the UK, with no visa or sponsorship required.
- **Development & interests:** Keen to work towards a professional accountancy qualification (AAT, ACCA or CIMA) with employer support. Interested in financial markets, AI and automation, specialty coffee, sport and music.
